ABOUT

Rob grew up in Bloomfield Hills and graduated from Michigan State with 3 Bachelor of Arts degrees and a Finance MBA from The Eli Broad College of Business. During a career in corporate banking and finance, he specialized in real estate, mergers and acquisitions, and helped run a commercial finance company. Rob has closed over \$2.10 billion in transactions during his career and brings this experience to every transaction to seamlessly execute each client's experience.

Prior to joining @properties, Rob ran his own commercial real estate brokerage and development company. His financial and marketing expertise is enhanced by a creative skillset that includes website development, photography, and videography. All of these skills are employed to exceed a client's needs and expectations, whether they are first-time buyers or commercial property investors.

Rob served for 13 years on the Birmingham Board of Education as board president and treasurer representing the residents of the nine Birmingham Public Schools' communities. He continues to volunteer as treasurer of SCHOLAR, a charity dedicated to providing college scholarships to local graduating high school seniors. Rob's dedication to the value of relationships, service, and community is at the heart of his decision to join @properties.
